STACKED STONE PREMIUM

FOUNDRY
Specialty Siding

SHINGLES AND SHAKES

We work in the old-world tradition to use over 100 different molds that capture the natural traits of hand split cedar. All our claddings have a texture that is carried through to the bottom edge of the panel to give an authentic rough-sawn look. This level of detail is only possible with our proprietary process.

SIDING

JamesHardie

ColorPlus Technology

James Hardie® Siding Products with ColorPlus® Technology

- Shadow lines and rich, realistic wood grain provide a more natural and attractive finish for lasting curb appeal
- Ages beautifully and maintains its original character over time with low maintenance
- Resists warping, cracking & splitting caused by exposure to weather & temperature extremes
- Resists damage from high winds and hail
- Won't sag or lose shape over time
- Professionally developed color palette based on market specific preferences
- Multi-coat baked-on finish ensures color quality and consistency
- Fiber cement can be painted to change the appearance
- According to a report by a leading home-improvement magazine, adding fiber-cement siding to your home is the #1 way to get the return on your investment.
