TREATED LUMBER

IN STOCK! CHECK BRANCH AVAILABILITY

..... #1 GRADE IN STOCK #2 GRADE IN STOCK

2" x 2" 2" x 4" 2" x 6" 4" x 4"
2" x 8" 2" x 10" 2" x 12"

As with other pressure-treated lumber products, the preservative used to treat ProWood Micro and ProWood Micro CA contains copper and quaternary compounds that protect against termite attack and decay. But with ProWood Micro and ProWood Micro CA, the copper is micronized to provide revolutionary new benefits: less corrosive and compatible with aluminum. Unlike other copper-based wood preservatives, the preservative in ProWood Micro and ProWood Micro CA products does not use solvents to dissolve the copper in solution. Instead, it uses micronizing technology (patent pending) to grind copper particles so small they can penetrate into the wood in solid form.

COMPOSITE DECKING SYSTEM

IN STOCK! 12ft • 16ft • 20ft Boards
 Over 300,000 lineal feet company wide!

INTREPID DECKING

- Features:**
- Each board is reversible, with a woodgrain pattern on one side and brushed finish on the other
 - Available in either a solid profile or slotted
 - Strandex® composite technology stands up to harsh weather and heavy traffic to deliver lasting beauty and durability
 - 25-year limited warranty

CAPTIVA DECKING

- Features:**
- Specialized formulation of high-density polyethylene
 - Advanced co-extrusion technology for ultra low-maintenance
 - Durable, scratch, and fade and moisture-resistant exterior finish
 - Virtually impervious to stains

NEW! CAPRICORN DECKING

SHORELINE

Features:

- Specialized formulation of high-density polyethylene
- Advanced co-extrusion technology for ultra low-maintenance
- Durable, fade and moisture-resistant exterior finish
- Virtually impervious to stains

RAILING PRODUCTS

Superior Aluminum Products, Inc.

SERIES 2000 Superior's attractive **Cable Railing** is strong, durable, maintenance-free and provides an almost unobstructed view. The Cable Railing is available in ten decorative permanent finishes including white, black, light bronze, dark bronze, tan, almond, sandstone, green, brown and satin anodized.

SERIES 9000 Superior's new Series 9000 Heavy Duty **Aluminum Assembled Picket Railing** offers the most attractive and innovative railing design available on the market today. This Assembled Picket Railing was specifically developed to conceal all exposed picket screw heads in the top and bottom rail assemblies and eliminate level rail post brackets.

SERIES 7000 Superior's innovative new Series 7000 Aluminum **Assembled Picket Fence** was specifically developed to conceal all exposed picket screw heads in the top and bottom rail assemblies and eliminate level rail post brackets.

SERIES 500 **Pipe Railing**
Non-Welded Aluminum Railing

- Strong 1-1/2" Schedule 40 posts & rails
- Posts and top rails designed to run in continuous lengths for extra strength

**Available in Series 500 Pipe Railing and Series 550 Pipe Picket Railing. Meets OSHA, BOCA and ADA* Safety Criteria.*

SERIES 600 **Railing & Columns**
Custom Residential Aluminum Railing & Columns

- Strong 1-1/2" wide top rail and 1-1/2" square post
- Quick installation with cast aluminum fittings, eliminating all welding

SERIES 700 **Picket Fence**
Aluminum Fencing & Custom Gates

- Available in heights from 36" to 72"
- 2-1/2" or 4" square posts and 3/4" pickets
- Wide variety of picket designs with formed spear, cast spear or flat top design

SERIES 900 **Railing**
Heavy-Duty Aluminum Railing

- No-weld assembly, easy-to-install
- Economical and Maintenance-free
- Maximum strength and support

**Available in Series 900, 950 and 990. Specify Series 950 to meet ADA regulations for a 2" maximum top rail. Meets OSHA, BOCA and ADA* Safety Criteria.*
