

Tools That Work as Hard as You Do.

Tapco Tool Systems deliver unrivaled efficiency for siding applicators. Set-up is a breeze. Bends are quick and smooth. Measuring is simple. Cutting and slitting are safer and more precise. With easier, faster and better looking jobs, a Tapco Tool System leads to enhanced profitability.

TAPCO WINDY SPECIAL

SIZE	ITEM NUMBER
8' 6"	TW1408
10' 6"	TW1410

Details

- Locking system design provides more clamping power with less effort. Locks on a wider variety of material thicknesses with no need for adjustments
- Full 14" throat depth
- Stainless steel bending edge. Accurate built-in depth gauges
- Capable of 130° overbends
- Accommodates PRO-Coiler to keep your coil off the ground and at your fingertips for speedier bending
- Removable bending handle for easy transport
- Available in 8'6" and 10'6" lengths

TAPCO PRO-14 PORT-O-BENDER

SIZE	ITEM NUMBER
8' 6"	TPRO1408
10' 6"	TPRO1410
12' 6"	TPRO1412

Details

- 14" (35,6 cm) throat depth with patented large inside working pockets and a 2 3/8" (6 cm) mouth opening
- Lightweight, high tech anodized alloys and computer designed die castings for strong, durable performance
- Fast, strong, positive clamping
- Patented "Moving Pivot Hinge", the world's most advanced hinge design, for unparalleled bending performance
- 180° hemming capability for making more rigid panels
- Available in 8'6", 10'6" and 12'6" lengths
- Heavy Duty version available in 10'6" length

TAPCO PRO-19 PORT-O-BENDER

SIZE	ITEM NUMBER
6'	TPRO1906
8' 6"	TPRO1908
10' 6"	TPRO1910
12' 6"	TPRO1912

Details

- 19" (48,3 cm) throat depth—largest in the industry for more efficient bending
- Stores material inside bender—reduces handling & flipping of material & speeds up bending
- Lightweight, high-tech anodized alloys and computer designed die castings
- Patented "Moving Pivot Hinge" increases bending power without marring material
- Patented inside working pockets and 2 3/8" (6,0 cm) mouth opening
- 180° hemming capability for making more rigid panels
- Available in 6', 8'6", 10'6" and 12'6" lengths

TAPCO MAXIMUM BENDER WITH MAX STAND & CUT OFF

SIZE	ITEM NUMBER
8' 6"	TMAX08
10' 6"	TMAX10
12' 6"	TMAX12
14' 6"	TMAX14

Details

- Bends and forms commercial metals on the job site. Used for commercial, architectural and industrial sheet metal fabrication
- 19" (48,3 cm) throat depth with a 2 3/8" (6,0 cm) mouth opening.
- Constructed with lightweight, high-tech, anodized alloys for maximum strength, durability, and portability.
- Strong, computer designed die castings for the toughest jobs
- Patented "Moving Pivot Hinge" increases bending power without marring materials
- Quick, strong, and positive clamping
- Unique hemming capability (180° overbends)
- Portable, for use in the shop or on the job site
- Available in 8'6", 10'6", 12'6" and 14'6" lengths
- Adjustable MAX Cut-Off included in purchase

TAPCO MX SERIES BENDER WITH STAND & MAX CUT OFF

SIZE	ITEM NUMBER
8' 6"	T14470
10' 6"	T14471
12' 6"	T14472

Details

- System includes an MX Series™ Brake, MX Stand™ and Adjustable MAX Cut-Off™
- Superior Bending Capacity
- Die-castings with reinforcing ribs to reduce deflection and increase bending performance.
- Double-wall pivot arms provide added strength.
- Ergonomic handles provide added leverage
- Revolutionary moving hinge system increases bending power without marring materials. Also slides for easy maintenance
- Total Stability
- MX Stand offers complete stability with its trapezoidal design
- Wider plank increases stability while bending

PROTRAX MULTI-ANGLE SAW TABLE

ITEM NUMBER
TPT

Details

- Fast & Easy Setup.
- Cuts multiple angles from 3/12 to 12/12
- Weight estimated at 80 lbs (deck 60 lbs / boom 20 lbs)
- Sub-structure provides self cleaning surface
- Accommodates almost any 7 1/4" circular saw
- Captured saw track provides secure & safe operation
- Free-floating saw boom for flexibility and time savings at the job-site
- Lightweight and durable tubular frame system.
- Fits on Snap Stand
- Deck Extender Kit expands deck up to 20" in width; converts to universal work station for layout and cutting of materials

SNAP STAND FOR PRO SERIES BRAKES

ITEM NUMBER
TSNAP

Details

- Solid support for your portable brakes and saw tables
- Legs adjust independently to level on uneven ground
- Brakes and Saw Tables easily snap and lock in place
- Folds flat for easy storage
- Sets up in seconds

PORT-O-SLITTER STAND 24"

ITEM NUMBER
POS24STAND

Details

- Use with the Tapco Port-O-Slitter
- Durable adjustable legs are easy to use, transport & store

FOLDING LEGS FOR WINDY BRAKES

ITEM NUMBER
T10147

Details

- Folding Legs Light duty leg set for use with "Windy" SP
- Tubular steel construction
- 30" high, folds compactly

WHEEL KIT FOR SNAP STAND

ITEM NUMBER
TWK

Details

- 2 wheel kit

24" SLITTER CUT-OFF

ITEM NUMBER
TSC024

Details

- Attaches to the Tapco Port-O-Slitter 24" System
- Makes cross sectional cuts easier and fast
- Perfect for making your Port-O-Slitter System complete

PRO CUT-OFF GAUGE

ITEM NUMBER
T12250

Details

- Includes 2 gauges
- Makes cuts faster without measuring each cut
- Simplifies cutting
- Tapco PRO 14, Tapco PRO 19 & the Tapco MAX-I-MUM XL

STAINLESS EDGE WINDY SPECIAL

BRAKE BUDDY WITH CASE

ITEM NUMBER

TBB

Details

- Roll forming tool for use with portable brakes
- Quickly & easily forms brick mold trim and decorative ribs
- Enables you to offer added style & individuality to all your jobs
- Easy adjustment with the flick of your wrist
- Includes molded plastic storage case

PRO CUT-OFF WITH CASE

ITEM NUMBER

TPCO

Details

- Quickly & safely make factory quality cuts right on your brake
- Lightweight aluminum construction built to last
- Eliminates use of dangerous utility knives & open blades
- For use with all PRO Series Brakes (1995 and after)
- Includes molded storage case

ADJUSTABLE MAXIMUM CUT-OFF WITH CASE

ITEM NUMBER

TMCO

Details

- Quickly & safely make factory quality cuts right on your brake
- Lightweight aluminum construction built to last
- Eliminates use of dangerous utility knives & open blades
- Includes molded storage case
- Works with Pro series brakes
- Recommended for Pro 14 HD

PORT-O-SLITTER 24" WIDE

ITEM NUMBER

TPOS24B

Details

- Offers precision slitting & rib forming in a portable, efficient package
- Two sets of cutting knives are included to make single or multiple factory-quality cuts
- Available options let you completely integrate your slitting system for maximum time-savings: 1/2 HP Motor Kit (specify 110v or 220v), Slitter Snap Stand, 24" Slitter Cut-Off, PRO-Coiler
- Shaft Diameter - 2"

PRO COILER

ITEM NUMBER

TPC

Details

- Secures coil directly to the Windy SP Port-O-Brake or Port-O-Slitter with Snap Stand
- Great for securing coil right onto your Tapco Tool system
- Capacity: Up to 24" x 100' coil
- Portable trim coil holder
- Attaches and detaches easily

SIDE WINDER

ITEM NUMBER

TSW

Details

- Keeps the coil at your side where you need it!
- Allows you to feed coil directly into the jaws of your PRO Brake
- Attaches in seconds to PRO 19 or PRO 14 brakes. (excluding 12'6")

ANGLE GAUGE

ITEM NUMBER

TAG

Details

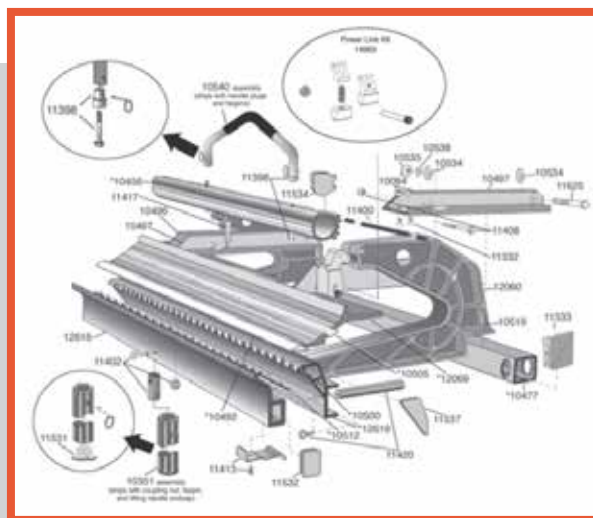

- Take the guess work out of your bends
- Mounts easily on any PRO, MX Series, or MAX-I-MUM II brake built after 1995
- Quickly shows the bending angle

Van Mark *"We Have The Brake That Works Best For You!"*

MARK II™ TRIMMASTER CONTRACTOR

SIZE	ITEM NUMBER
8' 6"	TM8
10' 6"	TM10
12' 6"	TM12

Details

- Power Lock™ bar provides stronger clamping along the entire bending edge for crisp, clean bends without oil canning or warping
- Increased bending radius. Make 180° hem bends easier than ever.
- Make smaller "J" channels
- Make hollow core hinge extrusions for added strength
- Powder-coat finish provides superior protection from the elements, while eliminating UV fading and oxidation

MARK II™ TRIMMASTER COMMERCIAL

SIZE	ITEM NUMBER
8' 6"	TM8HD
10' 6"	TM10HD
12' 6"	TM12HD

Details

- Power Lock™ bar provides stronger clamping along the entire bending edge for crisp, clean bends without oil canning or warping
- Increased bending radius. Make 180° hem bends easier than ever.
- Make smaller "J" channels
- Make hollow core hinge extrusions for added strength
- Powder-coat finish provides superior protection from the elements, while eliminating UV fading and oxidation

METAL MASTER® 20 CONTRACTOR

SIZE	ITEM NUMBER
8' 6"	MM850
10' 6"	MM1050
12' 6"	MM1250

Details

- 20³/₈" Throat Depth
- Strongest computer engineered castings for unmatched strength
- Deepest throat available for working with wider materials
- Dual hollow-core Power Lock™ bar for better clamping force
- Increased bending radius. Make 180° hem bends easier than ever.
- Adjustable clamping jaws with the largest opening in its class
- Ergonomic heavy-duty bending handles for improved leverage

METAL MASTER® 20 COMMERCIAL

SIZE	ITEM NUMBER
10' 6"	MM1051
12' 6"	MM1251

Details

- 20³/₈" Throat Depth
- Strongest computer engineered castings for unmatched strength
- Deepest throat available for working with wider materials
- Dual hollow-core Power Lock™ bar for better clamping force
- Increased bending radius. Make 180° hem bends easier than ever.
- Adjustable clamping jaws with the largest opening in its class
- Ergonomic heavy-duty bending handles for improved leverage

MARK IV INDUSTRIAL TRIMMASTER WITH STAND

SIZE	ITEM NUMBER
8' 6"	IT8
10' 6"	IT10
12' 6"	IT12

Details

- 14" Throat Depth
- Power Lock™ bar provides stronger clamping pressure along the entire bending edge for crisp, clean bends without oil canning or warping
- Increased bending radius simplifies hemming & over-bending resulting in faster, easier operations.
- Powder-Coat finish provides superior protection from the elements, while eliminating UV fading and oxidation
- Computer designed components, long service-life, & strongest capacities

METAL MASTER 20 EZ INDUSTRIAL WITH STAND

SIZE	ITEM NUMBER
8' 6"	IM855
10' 6"	IM1055
12' 6"	IM1255

Details

- 20³/₈" Throat Depth
- Reinforced Lock Master™ castings are 25% stronger
- Power Lock™ bar with increased bend radius adds strength and allows easier hemming
- Ergonomic full looping bending handles
- "Drop In" platform is ready to go in just two easy steps
- Low profile extended platform is 9" longer
- Center-weighted wheels "spin on a dime"
- Large heavy-duty ball bearing wheels

Van Mark

TRIM-A-BRAKE II™

SIZE	ITEM NUMBER
8' 6"	T850
10' 6"	T1050

Details

- Light-weight brake loads into the truck quickly for use of multiple crews
- Requires little set-up or maintenance
- Hinge pocket helps prevent scoring damage to components
- Ridge "I" beam base rails ensure brake stays in calibration

- Full loop handle provides uniform bending along entire piece
- Material stops allow repeat bending without re-measurement
- Brake has 3/8" x 13" throat & vinyl strip for protecting material

MARK I SERIES™

SIZE	ITEM NUMBER
8' 6"	M8
10' 6"	M10
12' 6"	M12

Details

- Fewer parts resulting in along trouble-free service life
- No need to adjust this brake daily, or even monthly as the unique cam locking feature clamps to the thickness of the material
- Power Lock™ bar provides stronger clamping along the entire bending edge for crisp, clean bends without oil canning or warping

- Increased bending radius. Make 180° hem bends easier than ever.
- Powder-coat finish provides superior protection from the elements, while eliminating UV fading and oxidation

TRIM-A-TABLE MODEL TAT50

ITEM NUMBER
TAT50

Steel Legs part #3001 sold separately
Saw not included

Details

- Recessed blade track prevents saw blade damage to table
- 18 foot extendable deck supports longer panels and planks
- Precise angle gauge accurately shows pitch & degree scale
- Memory & butt stops helps to automate repeat cutting
- Positive-Locking boom all-metal design keeps boom locked

TRIM-A-TABLE MODEL TAT60

ITEM NUMBER
TAT60

Steel Legs part #3001 sold separately
Saw not included

Details

- 6 foot Saw Boom: Allows cuts as shallow as 2/12 pitch
- Redesigned saw rails: Stronger rails help prevent sagging during cut
- Fully captured saw rails: Provides complete saw control for precision cuts
- Quick-Adjust saw rails: Get you up & cutting fast & easy
- Dual wing supports: Design for todays wider siding panels
- Extends from 8' to 18': Perfect for cutting fiber-cement siding

TRIM-A-GUTTER

ITEM NUMBER
TAG50

UniLeg™ sold separately

Details

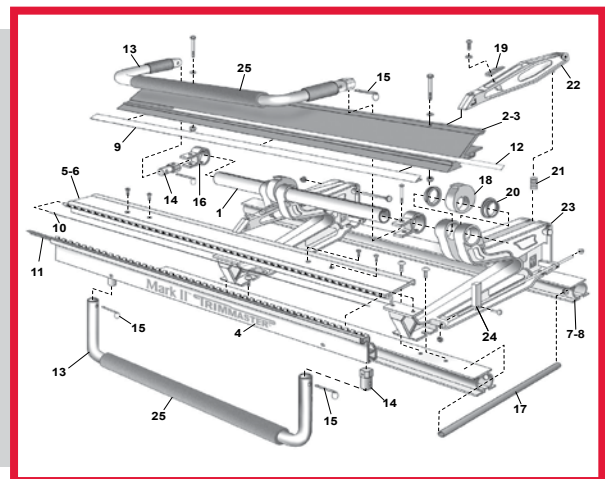

- Custom form profitable gutter hood for virtually any 5" or 6" K Style Gutter
- Forms up to 48" industry standard gutter hood
- The cost per foot of this system is one of the lowest available
- Make any style hood from fascia or roof mount to dome or low profile

Details

Fits The Following

- Metal Master® 20 brakes with a 20" throat

STEEL LEG KITS

DESCRIPTION	ITEM NUMBER
Trim-A-Brake	VM3000
Trim-A-Table	VM3001
Mark I • Mark II	VM3002

Details

- Steel Legs install quickly and fold out of the way when tool is idle
- Mounting hardware included

COIL DISPENSER

ITEM NUMBER
CD24

TrimCutter™ sold separately

Details

- No unravelling coils or wind-blown damage
- Unit saves time and money by allowing material to be fed directly into most brakes/slitters
- Also works with TrimCutter™

TRIMCUTTER™

ITEM NUMBER
3017

Details

- Uses a unique 4 point track bearing system to ensure tool does not ride off the brake during cut
- Low profile grip area allows you to direct power along the plane of the cut resulting in one smooth motion
- Cuts aluminum, copper, zinc & stainless steel
