## LANDMARK

CTL30ARM

Landmark shingles take roofing to a higher level.

Durable, beautiful color-blended line of shingles. The widest array of colors to suit any trim, stucco or siding color. Manufactured with self-sealing adhesive strips and a wide nailing zone, larger than competitors for ease of installation so your roofing job is complete in no time.

## INSPIRE<sup>®</sup> ROOFING PRODUCTS

**Slate Tiles** Inspire Slate is stronger than real slate—and our Shake is more durable than genuine cedar. Inspire's lighter weight allows for installation without the extra support natural slate requires. It's also more durable and water impermeable.

Inspire roofing products offer Class A fire rating, Class 4 impact rating, and 110-mph wind uplift protection. Inspire requires no vigorous maintenance, is also environmentally sustainable, and offers a transferable Limited Lifetime Warranty.

## Shake Tiles

Inspire shake has beautifully achieved what was once impossible - creating a synthetic shake that is easy to love and without maintenance. There is none of the notorious rotting, cracking, splitting or chemical treating that natural cedar often regularly requires. Instead, the roof is extremely durable & fire risk is minimized with our top-level Class A fire resistance.

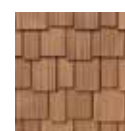

Inspire Shake Tiles

**The No Leak Skylight**

\* No Leak Promise • No Worries

Rain sensor  
Solar powered

### SAFETY

VELUX recommends and building codes require laminated glass for out of reach applications

### CLEAN

Features Neat<sup>®</sup> glass coating to keep your skylight cleaner, longer, leaving skylights virtually spotless

### NOISE

Reduce unwanted outside noise by up to 25% less than a standard double pane glass, and up to 50% less than a plastic skylight

## Introducing the Solar Powered "Fresh Air" Skylight

The Solar Powered "Fresh Air" skylight features a solar panel that captures any available daylight and uses it to recharge a highly efficient, fully concealed, battery powered operator and control system. The battery powered operator is the power source that opens and closes the skylight and the solar panel serves as the charging source for the system.
